

***Turnerellina*, a new name for *Turnerella* Taylor & McKinney, 2006 (Bryozoa, Cheilostomata)**

Paul D. Taylor & Frank K. McKinney

Taylor, P.D. & McKinney, F.K. *Turnerellina*, a new name for *Turnerella* Taylor & McKinney, 2006 (Bryozoa, Cheilostomata). *Scripta Geologica*, **135**: 283, Leiden, November 2007.

Paul D. Taylor, Department of Palaeontology, Natural History Museum, Cromwell Road, London SW7 5BD, UK (p.taylor@nhm.ac.uk); Frank K. McKinney, Department of Geology, Appalachian State University, Boone, North Carolina 28608, USA (mckinneyfk@yahoo.com).

Key words – Bryozoa, taxonomy.

Turnerella Taylor & McKinney, 2006, p. 164, introduced for a new genus of cribrimorph Cheilostomata (Bryozoa), is preoccupied by *Turnerella* Cockerell, 1910, a genus of Hymenoptera, and two other introductions of the same name for new insect genera. We propose *Turnerellina* as a new name to replace *Turnerella* Taylor & McKinney (*non* Cockerell, 1910, p. 262; *non* Rohwer, 1910, p. 349; *non* Subba Rao, 1971, p. 218).

We thank Philip Bock for drawing our attention to the homonymy.
