

Rectification of a wrong name in *Magnolia* (*Magnoliaceae*)

H.P. Nootboom¹

Key words

Magnolia
Magnoliaceae
new combinations

Abstract Two new combinations are made in *Magnolia*: *M. sumatrana* and *M. sumatrana* var. *glauca*.

Published on 12 October 2011

Dr I.M. Turner, Editor, Journal of Tropical Ecology, wrote (pers. comm.): "It struck me that *Magnolia blumei* var. *sumatrana* was an odd combination because *Magnolia blumei* Prantl (Nat. Pflanzenfam. 3(2): 16 (1888)) is a younger name than the basionym of the variety *Manglietia sumatrana* Miq. (Fl. Ned. Ind., Eerste Bijv. 367 (1861))".

The error is hereby corrected.

Magnolia sumatrana (Miq.) Figlar & Noot., *comb. nov.*

var. ***sumatrana***

Manglietia sumatrana Miq., Fl. Ned. Ind., Eerste Bijv. (1861) 367. — *Manglietia glauca* var. *sumatrana* (Miq.) Dandy (1928) 188. — *Magnolia blumei* var. *sumatrana* Figlar & Noot. (2004) 95. — Type: *Teijsmann 468* (L, barcode L0038381; iso BO, U, barcode U0003773), Sumatra, Bukit Silit.

Manglietia pilosa P.Parm. (1896) 217, 292. — Type: *O. Beccari P.S. 334* (holo P, barcode P00734845; iso FI-B, K, L, barcode L0038382), Sumatra, Gunung Singalang.

Manglietia singalanensis A.Agostini (1926) 183. — Type: *Beccari P.S. 87* (lectotype, here chosen); syntype: *Beccari P.S. 97* (both FI-B), Sumatra, Gunung Singalang.

var. ***glauca*** (Prantl) Figlar & Noot., *comb. nov.*

Manglietia glauca Blume, Verh. Batav. Genootsch. Kunsten 9 (1823) 150. — *Magnolia blumei* Prantl (1888) 16. — Type: *Blume s.n.* (n.v.) Java, G. Salak.

The name *glauca* at the level of variety dates as autonym from 1928 when Dandy recognized *Manglietia glauca* Bl. var. *lanuginosa* Dandy (1928) 187. This is now *Magnolia lanuginosoides* Figlar & Noot. (2004) 95. Therefore under art. 11.6 of the ICBN the name should be used here.
