

VIII. CORRECTIONS FOR COLLABORATORS

In the "Directions and Hints" for collaborators in Flora Malesiana, which has been forwarded to all collaborators, two corrections should be made, viz:

- 1) p.12: Omit the explanatory notes under Jamaica Plain, Mass., and Cambridge, Mass.
- 2) p.13: Add as number 12a: Stockholm, Paleobotaniska Avdelningen of the Naturhistoriska Riksmuseet, Stockholm 50.
-- Specially important for Gymnosperms and Pteridophytes; contains the Swarz types, Rosenstock's species; indispensable for series II.
